

Policrom Plate Cleaner & Scratch Remover

Description

Policrom Plate Cleaner / Scratch Remover is a multipurpose cleaner for use on most brands of thermal and violet processed metal plates. It is designed to remove ink, gum glaze and paper. It is also a good desensitizer for sensitive plate areas and scratches. It is also suitable for use as a cleaner /desensitizer on chrome rollers and metal cylinders.

Directions

Sheetfed Press: Use when press is stopped. Saturate a water-dampened cloth or sponge with Policrom Plate Cleaner / Scratch Remover. Apply to surfaces to be cleaned; then wipe off with a clean, dampened cloth.

Web Press: Follow the same procedure as with sheetfed. For emergency clean-up, Policrom Plate Cleaner / Scratch Remover may be applied directly to the plate with a spray bottle while the press is running.

Product Need and Usage

Policrom Plate Cleaner / Scratch Remover can be used as a general purpose cleaner on both sheetfed and web presses. Modern CTP plates may become sensitive due to wear from friction, build-up of contaminants, and damage in handling. Policrom Plate Cleaner / Scratch Remover will clean and desensitize plates from all of these sources.

Features

- * Compatible with most thermal and violet CTP plates.
- * Fast cleaning emulsion.
- * Excellent cleaner and desensitizer.
- * Multipurpose for plates, chrome rollers and impression cylinders.
